POST CARD

CONFIDENCE

★ It is a great thing, confidence.

★ You must have it if you would be happy.

★ You must believe in yourself and your proposition if you would go to bed light-hearted and arise properly girded for the fray.

★ If you worry over the criticisms of the world—if you fear your competitors—if you allow business depression to depress your nervous system—you'll be miserable.

★ Have confidence in yourself and in the future of your country and your business and you are sure to win.

John C. Finch
